

# Problems with

- long delivery times?
- uncalculated price increase?

Here is your solution...

# Are you looking for reliable delivery times and stable prices? Then we have a solution for you!

## You can count on us:

**Reliable and fast supply for most sensors**

In view of the current global supply situation, we have renegotiated contracts with our suppliers for the reliable material and parts delivery.

As a result, we can ensure delivery of the majority of our sensors and instruments within our well-known short delivery times for:

- Temperature sensors
- Level sensors
- Point level switches
- Turbidity sensors
- Conductivity sensors
- Almost all IO-Link sensors
- And many devices of other product categories.

## You can rely on us:

**Don't let unplanned price changes upset your project**

We know how difficult it is to make a reliable price calculation at the moment. That is why we give you a price guarantee on our entire product range.

We ensure price stability for 90 days for all project quotes\* issued in Q3 2022. No matter what comes! So you can calculate your projects and sensor equipment in a safe and dependable manner.

Please enquire for details on delivery times and prices.

\* Project quote = higher than 8,500 € list price or after individual approval.
